Candidate surname

Other names

**Pearson Edexcel  
Level 3 GCE**

Centre Number

--	--	--	--	--

Candidate Number

--	--	--	--	--

Time 1 hour 30 minutes

Paper  
reference

**9FM0/02**

**Further Mathematics**

**Advanced**

**PAPER 2: Core Pure Mathematics 2**

**You must have:**

Mathematical Formulae and Statistical Tables (Green), calculator

Total Marks

**Candidates may use any calculator permitted by Pearson regulations. Calculators must not have the facility for algebraic manipulation, differentiation and integration, or have retrievable mathematical formulae stored in them.**

### Instructions

- Use **black** ink or ball-point pen.
- If pencil is used for diagrams/sketches/graphs it must be dark (HB or B).
- **Fill in the boxes** at the top of this page with your name, centre number and candidate number.
- Answer **all** questions and ensure that your answers to parts of questions are clearly labelled.
- Answer the questions in the spaces provided  
– *there may be more space than you need.*
- You should show sufficient working to make your methods clear.  
Answers without working may not gain full credit.
- Inexact answers should be given to three significant figures unless otherwise stated.

### Information

- A booklet 'Mathematical Formulae and Statistical Tables' is provided.
- There are 9 questions in this question paper. The total mark for this paper is 75.
- The marks for **each** question are shown in brackets  
– *use this as a guide as to how much time to spend on each question.*

### Advice

- Read each question carefully before you start to answer it.
- Try to answer every question.
- Check your answers if you have time at the end.
- Good luck with your examination.

Pearson

1. Given that

$$z_1 = 3 \left( \cos\left(\frac{\pi}{3}\right) + i \sin\left(\frac{\pi}{3}\right) \right)$$
$$z_2 = \sqrt{2} \left( \cos\left(\frac{\pi}{12}\right) - i \sin\left(\frac{\pi}{12}\right) \right)$$

(a) write down the exact value of

(i)  $|z_1 z_2|$

(ii)  $\arg(z_1 z_2)$

(2)

Given that  $w = z_1 z_2$  and that  $\arg(w^n) = 0$ , where  $n \in \mathbb{Z}^+$

(b) determine

(i) the smallest positive value of  $n$

(ii) the corresponding value of  $|w^n|$

(3)

2.

$$A = \begin{pmatrix} 4 & -2 \\ 5 & 3 \end{pmatrix}$$

The matrix  $A$  represents the linear transformation  $M$ .

Prove that, for the linear transformation  $M$ , there are no invariant lines.

(5)
